

**W250 Series** of Weather-proof Boots are manufactured from a highly UV resistant Silicone material that is used to protect any connector junction with 1/4" cable. They are much simpler than Cold Shrinks, Heat Shrinks, GSIC seals and insulation tape. Simply slide on the boots across the connector junction and achieve IP68 protection. Slide off the boots whenever the connector junction needs to be revisited. With these Weather-Proof Boots, site protection is made easy. They are available for different connector options.

#### **FEATURES:**

- Flexible and highly UV Resistant Silicone
- Reusable Weather-Proofing Solution
- Easy Slide-In and Slide-Out Operation
- RoHS Compliant
- IP68 Rated
- Available for different Connector junctions

#### **ORDERING INFO FOR W250 Series:**

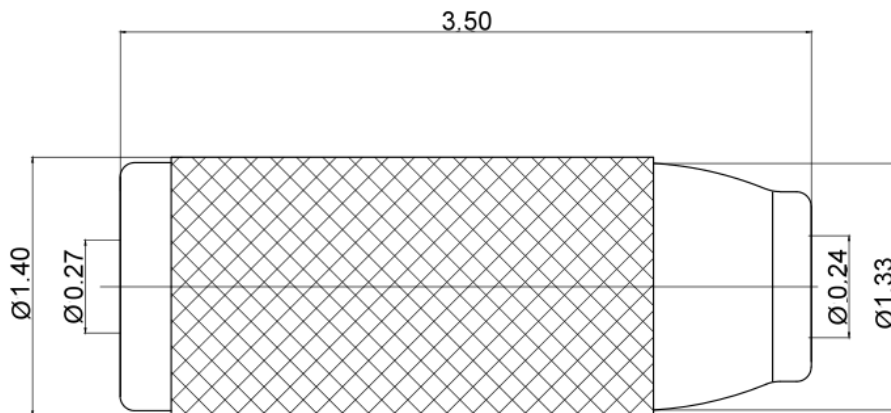

<b>W250-D43:</b>	4.3-10 Male/Female Connector
<b>W250-X10:</b>	NEX10 Male/Female Connector
<b>W250-N:</b>	Type-N Male/Female Connector

\*\*\* Other Connector Options Available on Request

#### **SPECIFICATIONS:**

Material:	Flexible Silicone
UV Resistant:	Yes
RoHS Compliant:	Yes
Mating Cycles:	> 50,000
Temperature Range:	-60°C to +240°C
Color:	Black

#### **DIMENSIONS FOR W250-D43:**
